### World's Most Adaptable, Versatile Workbench Now Available at Woodcraft

PARKERSBURG, W.Va., Feb. 23 /PRNewswire/ -- If you are in the market for the perfect workbench - versatile enough to go on any job site and adaptable to any situation - check out the Walko Workbench System, now available through Woodcraft.com, the Woodcraft Catalog (800-225-1153) and participating Woodcraft stores.

Jody Garrett, VP of Marketing and Merchandising at Woodcraft, said, "The Walko Workbench System features a lightweight, innovative, modular design that is extremely user-friendly, versatile and durable. This is a 'must-see' product and it is already receiving quite a bit of 'buzz' on the internet."

The Walko Workbench was designed to be the finest and most adaptable bench system in the world today. This multifunctional bench features an adjustable working surface consisting of two tables - or tops - which hang from and lock into position on the sides of the "Hinged A-Frame." In the top position, the tables combine to create a large flat work surface. However, the tables hanging from the frame can be lowered, have their height staggered, tilted and even placed on the same side enabling you to adjust to the job at hand.

The Bench can also be unfolded "flat" and placed against a wall or on the floor. In the flat position, the Walko can be used to process plywood, MDF and drywall or when placed against a wall, you can use it like a workbench by hanging tables from it, should space be an issue.

Each of the two product models - the Walko 3 Compact Set and the Walko 4 Professional Set - are light enough to be used in the field yet strong enough to handle any job in the shop. From processing large sheet goods to cutting gutter or water pipe, the Walko System will change how you work!

And with the replaceable, sacrificial spacers built into the bench you're never in danger of cutting the frame. When you're cutting against the bench, the spacers give you a 1 1/2" area between the frame and your project.

For additional information or to order the Walko Workbench System, visit Woodcraft.com, contact the Woodcraft Catalog (800-225-1153) or contact your local Woodcraft store to see if they have it in stock.

Woodcraft is the industry leader in providing top quality products, educational opportunities and one-on-one guidance to woodworkers at all skill levels.
